Luke 10:2 And He was saying to them, "The harvest is plentiful, but the laborers are few; therefore pray earnestly to the Lord of the harvest to send out laborers into His harvest.

Mormonism Teaches:

- God was once a mortal man who lived on another planet
- Man may become gods.
- Jesus is the 1st offspring of Heavenly father and mother and humans are younger siblings.
- Salvation is "by grace After all we can do."
- A total apostasy occurred, the Gospel was restored by Joseph Smith. The LDS church is the only true church.
- Mormons need to go to Temples to be baptized and get married for the dead.
- Prophets & Mormon scripture trump the Bible.

Unchained Ministries facilitates evangelistic outreaches to Mormons in San Antonio, Utah, and at special event locations.

Utah: We lead, train and equip street evangelism team members with strategies to effectively apply in sharing the Biblical Gospel with Mormons and others

- Each April and October 60,000-80,000 Mormons attend General Conference from all over the world. Mormon spiritual authorities present teachings and instructions for LDS church members. Attendees hope to find inspiration in the presence of their prophet and to be encouraged in their Mormon faith.

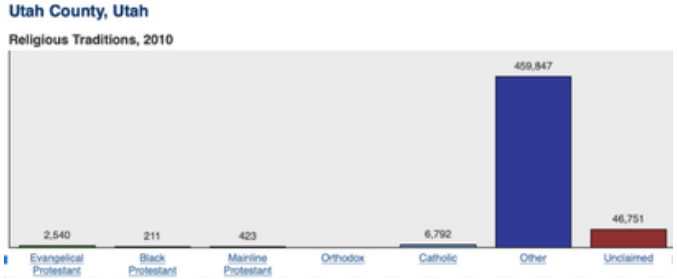

- Cultural events during the summer bring people out who are interested in engaging in faith discussions with Christians on the streets.

San Antonio: We train and equip individuals to effectively minister with us year round to local mormons.

WHY MORMONS?

Mormons in Utah are a statistically unreached people group. Utah County, UT (the area around Provo, Utah, the home of BYU University) is only 0.49% Evangelical, less than half of 1% of the population. Recently the Church of Jesus Christ of Latter Day Saints (LDS / Mormon church) has been hemorrhaging disenchanted members. Having little to no exposure to the true gospel, most become atheists. Most Utah Mormons don't know any real Christians.

Mormons outside of Utah are rarely evangelized because they are commonly inaccurately considered Christians. By admission of many previous Mormon leader, they are not Christians nor do they worship the same God or have the same plan of salvation.

Research shows that massive numbers of Mormons are questioning their beliefs and abandoning not only the LDS church but also that God exists. They struggle because they have no one who understands how to address their unique questions and cultural challenges. Mormons need knowledgeable Christians to reach them.
